CONTENTS

February

Presidential Address. R. T. Severn 1

Papers

An engineer's guide to an award-winning project. The Princess of Wales Conservatory at the Royal Botanic Gardens, Kew: planning and design. A. Sarkar and G. D. Wilson. Paper 9525 29
The Princess of Wales Conservatory at the Royal Botanic Gardens, Kew: construction. D. Lambert and A. Sarkar. Paper 9526 67
Concrete fin-back bridge in USA. A. F. Gee. Paper 9559 91
Roman hydraulic engineering: two Vitruvian problems. W. G. Lockett. Paper 9558 123
An undergraduate education project: design and construction of Carie Bridge at Kinloch Rannoch. A. T. Davidson. Paper 9603 145
Modern Japanese suspension bridge design. A. R. Burden. Paper 9654 157
The Hennebique system: a Renaissance? G. Müller and G. I. B. Rankin. Paper 9678 179
A knowledge-based system to interpret results from pulse-echo pile integrity test. J. B. Comerford, D. I. Blockley and J. P. Davis. Paper 9687 189

Technical Note

Future sea-level rise: a working paper. M. G. Barrett. TN 557 205

Discussion

Limit equilibrium design methods for free embedded cantilever walls in granular materials. A. V. D. Bica and C. R. I. Clayton. Paper 9444 209

Conference

Coastal management. Reporter A. Powell 231

April

Papers

River Dee Viaduct: design. J. R. Saunders. Paper 9720 237
River Dee Viaduct: construction. C. G. Thomas and S. D. Bourne. Paper 9721 . . 259
The Victoria Project, Sri Lanka: project planning and design of Victoria Dam. P. A. A. Back and W. T. Mee. Paper 9520 281
The Victoria Project, Sri Lanka: construction of Victoria Dam. K. L. Cole and P. C. Neal. Paper 9528 313
The Victoria Project, Sri Lanka: construction of Victoria Tunnel. A. J. H. Speirs and P. J. Chapman. Paper 9648 349
The Victoria Project, Sri Lanka: Victoria Power-Station. B. Creber. Paper 9569 . 379
Deformation of segmental post-tensioned precast bridges as a result of corrosion of the tendons. R. J. Woodward and D. L. S. Wilson. Paper 9579 397
Knowledge-based processing for structural design. B. Kumar and B. H. V. Topping. Paper 9682 421
Design and performance of weathering steel bridges on Scottish trunk roads. D. Halden. Paper 9689 447

Discussions

Singapore Mass Rapid Transit System. T. W. Hulme, P. H. J. Chapman, Pok Sheung Foo, J. P. Copsey, B. Kraft, P. Sripathy, L. A. C. Potter and J. N. Shirlaw. Papers 9428–30 463

Reinforced earth trial structure for Dewsbury ring road. C. J. F. P. Jones, J. B. Cripwell and D. I. Bush. Paper 9518 503

Informal Discussion

Redevelopment of Terminal 3, Heathrow Airport. P. Fox and P. A. Legg (S. J. Littlewood) 507

Half-Day Meeting

Urban waterside development. D. Lock, L. M. Winter, P. Lacey and L. C. Eppel (P. McGairy, S. Hargreaves, R. Bennett and L. C. Eppel) 511

June

Papers

Castellated beams. P. R. Knowles. Paper 9573 521

Resurfacing runways on military airfields. J. C. Parish. Paper 9604 537

Major and routine maintenance of Manchester Airport's main runway and associated taxiways. W. S. Davies. Paper 9605 547

Asphalt surfacing of runways: a contractor's view on UK specifications at home and abroad. G. E. Broadhead. Paper 9606 563

Runway resurfacing experiences. G. E. Austin. Paper 9607 575

Provision of sanitation facilities for survivors of the Ruiz disaster, Colombia. J. de B. Ashworth, M. R. Norton and B. Walton. Paper 9681 587

Evaluation of site-dependent spectra for earthquake-resistant design of structures in Europe and North America. A. M. Chandler. Paper 9705 605

Technical Note

A model for determining optimum crane position. C. W. Choi and F. C. Harris. TN 558 627

Discussions

Salford Docks urban renewal: design, construction and management of civil engineering works. B. R. Hindle, D. T. Johnston, R. C. Kempton and J. H. Morgan. Paper 9451 635

Bridges and culverts reduced in size and cost by use of critical flow transitions. N. H. Cottman and G. R. McKay. Paper 9543 643

Mix design for PFA concrete. B. P. Hughes and M. N. A. Al-Ani. Paper 9558 . . 647

Civil engineering route to construction management. B. A. Young and A. R. Duff. Paper 9563 649

Seminars

Lawyers—why do engineers need them? D. R. Culverwell, D. E. Neal, N. Bunni and S. Mustow (J. H. Phillips) 653

Road pricing. Infrastructure Policy Group 673

The co-ordination of transport in London. Infrastructure Policy Group 679

Aviation congestion in the London airports system. Infrastructure Policy Group . 683

Railway congestion: the freight route from the Channel Tunnel to the North and the problems of privatization. Infrastructure Policy Group 685

Informal Discussions

Energy efficiency. M. Malpas and H. E. Miller (J. Eastwood) 687

Reconstruction after disaster. R. Spence, R. Sewell and A. Reed (B. J. Shorter) . . 691

August

Papers

Elevated section of the West Gate Freeway, South Melbourne, Australia. Part 1: design and construction of foundations. P. McDonald and D. R. Jellie. Paper 9637 695
Elevated section of the West Gate Freeway, South Melbourne, Australia. Part 2: design and construction of substructure and superstructures. D. R. Jellie and B. Shepherd. Paper 9638 733
Chesil Sea Defence Scheme. Paper 1: concept, design and construction. B. J. Hook and J. R. Kemble. Paper 9611 783
Chesil Sea Defence Scheme. Paper 2: design of interceptor drain. I. S. Heijne and G. M. West. Paper 9657 799
THORP—the management of the design process. E. Thorpe, B. H. Thurrell and L. S. Varey. Paper 9612 819
Principles of environmental protection. N. G. Semple. Paper 9706 837
The Libyan Great Man-Made River Project Phase I. Part 1: manufacture of pre-stressed concrete cylinder pipe. J. R. Stoner and P. G. Fookes. Paper 9749 . . 853
The Libyan Great Man-Made River Project Phase I. Part 2: concrete technology of prestressed concrete pipe manufacture. P. G. Fookes, J. R. Stoner and J. H. Mackintosh. Paper 9750 881

Discussion

Development of international airports in Southern Africa at Lilongwe, Malawi, and Gaborone, Botswana: planning and design, management and construction. J. R. Powter, D. W. Farthing and S. W. Logan. Papers 9356 and 9440 921

Informal Discussions

A comparison of port engineering standards. J. E. Clifford. (R. N. Wood). . . . 931
Hot dry rocks—a renewable energy resource. A. S. Batchelor, R. H. Parker and I. K. Smith (I. C. Parmee) 933
Infrastructural and airport development in Hong Kong. G. Barnes (B. H. Newman) 939
Professional relationship to Europe. S. Thorburn, M. W. Abrahamson, M. Cocks, P. B. Morice and J. E. Stratford (J. R. A. Gammon) 943
Feasibility studies for airports in small nations. R. St H. Cox and S. Hassan (M. G. Oliver) 947
Impact of the Channel fixed link on the civil engineering profession. G. S. Crighton (E. Crotty) 951

One-Day Meeting

DRIVE and the EC's Advanced Road Transport Telematics Programme: current activities and future prospects. K. G. Keen, I. Catling and N. T. Rees (D. P. Watling) 953

Half-Day Meeting

Close tolerance structures. D. Atherton, P. D. Jackson, R. Cowell and R. Smith (P. W. Friend) 959

October

Papers

Trackwork for lightweight railways. C. F. Bonnett. Paper 9658 963
Design and construction of Kalavasos Dam, Cyprus. O. P. Williams and R. A. Reader. Paper 9770 975

Furnace bottom ash: its engineering properties and its use as a sub-base material. A. R. Dawson and F. Bullen. Paper 9742 993
Manual recovery of shallow groundwater for irrigation by African farmers. R. D. Faulkner. Paper 9756 1011
Japanese cable-stayed bridge design. A. R. Burden. Paper 9777 1021

Discussions
Docklands Light Railway and subsequent upgrading: general contract, design principles, and design and construction of bridges and viaducts. B. F. Gonsalves, R. W. Deacon, D. Pilgrim and B. P. Pritchard. Papers 9552 and 9553 1053
The place of complementary studies in an engineering programme. J. Molgaard and J. J. Sharp. Paper 9442 1067
Three Valleys Water Committee: tunnel connection to Thames Water reservoirs. A. C. J. Baker and A. N. James. Paper 9533 1073
Defects in accepted methods of estimating design loading for silos. G. E. Blight. Paper 9593 1077
Rising groundwater levels in the United Kingdom. F. C. Brassington. Paper 9594 . 1089
Roman hydraulic engineering: two Vitruvian problems. W. G. Lockett. Paper 9588 1093
Modern Japanese suspension bridge design. A. R. Burden. Paper 9654 1099
Future sea-level rise: a working paper. M. G. Barrett. TN 557 1101

Seminar
Energy and the environment—clean power for the future. A. Williams, M. Tooley, A. Warren, J. Whitehead, J. Collier, R. Clare, G. Senior and W. Hannah (Helen Bernicoff and R. Huxford) 1107

Workshop meeting
Contractual systems for the design and construction of civil engineering works in the UK compared with those in other European countries. D. O. J. Ferry (R. S. Cooper) 1113
Variations on a scheme. G. F. Hawker (E. Crotty) 1117

Joint Half-Day Meeting
River and coastal flood embankments. M. J. Wakelin, R. J. Mains-Smith, J. D. Winders and F. M. Jardine (S. W. Young and C. G. Hoskins) 1121

Half-Day Meeting
Non-/partially destructive test methods. Developments in scanning/impulse radar systems and permeability testing. J. Figg, A. E. Long, A. Jack, G. Ballard, G. Mills and J. H. Bungey (F. R. Montgomery) 1135

Informal Discussions
Dartford–Thurrock Crossing. B. R. A. Blaxall, P. M. Dearson, R. D. Gillespie and R. A. Vickers (S. R. Harris) 1139
Solid waste management in developing countries. M. Coffey and A. Coad (A. Wray) 1143
Corrosion and durability in concrete and steel piles. D. Waite and M. Mure (J. Bickerdike) 1147

December

Papers
London's Docklands: engineering geology. A. F. Howland. Paper 9659 1153
London's Docklands: ground conditions and tunnelling methods. P. A. S. Ferguson, A. J. Runacres and N. A. Hill. Paper 9660 1179

London's Docklands: a geotechnical perspective of the highways. D. K. Young and P. Rutty. Paper 9661 1203
Design and construction of the basement of The Galleries Shopping Centre, Bristol. G. C. Peattie and M. S. Mojabi. Paper 9773 1225

Discussion

Use of sheet pile retaining walls for deep excavations in stiff clay. D. M. Potts and R. A. Day. Paper 9585 1255
